

FOR IMMEDIATE RELEASE:

## SharedPlan Software Announces New Workgroup License Bundles

*Project Teams Can Now Leverage SharedPlan's Unique Collaboration Features*

Boulder, CO April 19, 2005 – SharedPlan Software LLC today announced the immediate availability of bundled license pricing for workgroup purchases, enabling unprecedented levels of project team collaboration. The license packages combine multiple copies of SharedPlan Personal Edition and SharedPlan Professional Edition to enable economic deployment of SharedPlan's collaborative project management tools to all members of a project team.

SharedPlan software comes in two different versions, SharedPlan Professional Edition for project managers and SharedPlan Personal Edition for individual contributors or small group leaders. The two software applications complement each other by providing various collaborative features, such as the ability to import and export subprojects and tasks between users. SharedPlan software applications are also designed to be easy to use, enabling broad deployment without special training requirements. The license bundles now make this broad deployment more economic, as well.

The goal of SharedPlan Software LLC is to maximize team collaboration, thus improving the likelihood of project success. "Traditional project management software is complex and expensive, making it suitable only for project managers," said Roger Denton, founder of SharedPlan Software. "However, there is always a knowledge gap between project managers and project team members. SharedPlan's unique approach is to create useful products for the entire team and design in collaborative features to eliminate the knowledge gap."

### **Pricing Details**

The Workgroup License Bundles include the following standard packages:

Workgroup Bundle 103: One Professional Edition license, Three Personal Edition licenses, \$339.95.

Workgroup Bundle 206: Two Professional Edition licenses, Six Personal Edition licenses, \$639.95.

Custom bundles are available upon request. Both standard bundles may be purchased directly through SharedPlan's website, [www.sharedplan.com](http://www.sharedplan.com).

### **SharedPlan Software Background**

SharedPlan Software LLC creates project management software applications based on the fundamental belief that the highest rate of project success occurs when all project participants are involved in the development and maintenance of the project plan. The company was founded in 2003 and is headquartered in beautiful Boulder, Colorado.
